

“Environmental design was at the heart of our renovation choices. The Shaw Hospitality Group carpet was manufactured with Eco Solution Q[®] solution dyed nylon, which will be recycled when it needs to be replaced. Additionally, it was installed with low VOC adhesives, a must during the renovation process. ”

– Project Designer, ForrestPerkins

Set against a backdrop of dramatic southwest American skies and picturesque mountain ranges, The Westin Kierland Resort & Spa Phoenix – Scottsdale embodies the essence of Arizona from the moment of guests' arrival. The AAA Four Diamond Resort boasts distinguishingly different accommodations designed to revitalize the spirit of visitors to this desert oasis.

The recent renovation of guestrooms and suites feature design elements that reinforce the hotel's celebration of Arizona's legacy, while maintaining a neutral palette that soothes and envelops guests. Native American tribal baskets inspired the corridor carpet, while the guestrooms carpet features a custom design with a contemporary lasso motif.
